

estimated to be in this county this year 1,000,000 bushels of surplus for a market. Of pork, there will be some consumption, and possibly some export.

Cattle and sheep are beginning to come in, but a few years ago the hill sides will be covered with herds of lowing cattle and flocks of bleating sheep.

no room are the penetrable, yet dared to explore, and it was for the mere daring of it that they were not killed. L'Arry to die out, before the ill his buried magnificence complete neglect.

James Thornburgh, about sixty, killed Monday at Bridgeport, freight train on the Terre Haute road. He saw the train approaching, and got across the face of it; but not being quick witted by the engine and instantaneously reversed, soon

OTHER TREES.—The discovery of miles in extent, of Immense County, California, was lately made. One of them measured on the ground, was 120 feet in larger than any tree heretofore man cut unnecessarily for use through the back (so the story says) that made this discovery the valley so ground as the famous plain itself is 4,500 feet in extent, it is flanked by granite and stretching to the clouds.

ugh the little insects have
high the summer with their ac-
tivity, and I have multiplied large-
worm has been observed.

POMEROY.—We mentioned last
O. J. Ward, Esq., of Lond, by
er's a dose of poison, and was
just as we are going to press
that he died yesterday morn-
ning.
